

CALIFORNIA SLATE COMPANY

THE ENDURING BEAUTY OF
NATURAL SLATE ROOFING.

TECHNICAL DETAILS VERMONT PURPLE SLATE

Vermont Purple is one of the most distinctive and sought-after American slates, valued for its deep plum and burgundy tones with occasional green or gray inclusions. Quarried in Vermont, this premium slate is widely used for landmark restorations and bold contemporary designs where architectural character and long-lasting performance are essential. Its unique color range and natural variation set it apart as a true signature roofing material.

Color representation is for reference only. Contact California Slate Company for accurate color samples before final selection. Contact us for tile selection guidance.

KEY FEATURES

Color & Texture:

- Rich purple to burgundy hues, often with green mottling; natural cleft surface with medium texture.

Durability:

- Dense, strong slate with excellent resistance to weathering, freeze-thaw cycles, and color fading.

Workability:

- Reliable consistency; cuts and installs with standard roofing tools; available in varied sizes.

Longevity:

- Proven service life of 100+ years with proper care and installation.

Standards:

- Meets ASTM C406 (S1 Grade) for modulus of rupture, absorption, and weather resistance.

Cool Roof:

- Meets Title 24 requirements (Solar Reflectance Index).
