

CALIFORNIA SLATE
COMPANY

THE ENDURING BEAUTY OF
NATURAL SLATE ROOFING.

TECHNICAL DETAILS BRAZILLIAN GRAY GREEN SLATE

Brazilian Gray Green is a versatile slate characterized by its smooth texture and subtle mix of gray and green tones. Its distinctive look blends modern elegance with rustic appeal, making it suitable for a wide range of architectural styles. Quarried in Brazil, this slate is exceptionally dense and durable, with a clean, consistent finish that creates striking results whether used as a primary roof material or as an accent in blends.

KEY FEATURES

Color & Texture:

- Medium gray and green with smooth surface and rough, textured edges for added character.

Durability:

- High-density slate with excellent resistance to weathering, moisture, and color fading.

Workability:

- Requires power tools for cutting due to hardness; installs cleanly for precise finishes.

Longevity:

- Service life of 100+ years with minimal maintenance.

Standards:

- Meets ASTM C406 (S1 Grade) for modulus of rupture, absorption, and weather resistance.

Cool Roof:

- Meets Title 24 requirements (Solar Reflectance Index).

TECHNICAL DETAILS:

Size:

16" x 10" to 16" x 8"

Thickness:

0.25" to 0.5" (7–12 mm)
