

CALIFORNIA SLATE COMPANY

THE ENDURING BEAUTY OF NATURAL SLATE ROOFING.

Brazilian Gray Green is a versatile slate characterized by its smooth texture and subtle mix of gray and green tones. Its distinctive look blends modern elegance with rustic appeal, making it suitable for a wide range of architectural styles. Quarried in Brazil, this slate is exceptionally dense and durable, with a clean, consistent finish that creates striking results whether used as a primary roof material or as an accent in blends.

TECHNICAL DETAILS BRAZILLIAN GRAY GREEN SLATE

KEY FEATURES

Color & Texture:

- Medium gray and green with smooth surface and rough, textured edges for added character.

Durability:

- High-density slate with excellent resistance to unfading, moisture, and color fading.

Workability:

- Requires power tools for cutting due to its hardness; available in both standard and heavier thicknesses.

Longevity:

- Service life of 100+ years with minimal maintenance.

Standards:

- Meets ASTM C406 (S1 Grade) for modulus of rupture, absorption, and weather resistance.

Cool Roof:

- Meets Title 24 requirements (Solar Reflectance Index).

TECHNICAL DETAILS:
