

CALIFORNIA SLATE
COMPANY

THE ENDURING BEAUTY OF
NATURAL SLATE ROOFING.

TECHNICAL DETAILS VERMONT GRAY BLACK SLATE

Vermont Gray-Black is a premium natural roofing slate with medium to dark gray tones and subtle black linear markings. Quarried in Vermont and offered exclusively in the SLATE2™ lightweight system, it delivers a classic, uniform slate roof at 550 lbs. per square — roughly 43% lighter than comparable full-weight Vermont slate. That makes a genuine slate roof possible on residential, commercial and historic buildings that cannot carry traditional weight.

Color representation is for reference only. Contact California Slate Company for accurate color samples before final selection. Contact us for tile selection guidance.

SLATE² EXCLUSIVE

KEY FEATURES

Color & Texture:

- Medium to dark gray with subtle black linear markings; uniform appearance with a natural cleft surface.
